III. ANTI-COPY DECLARATION

The 3C ONYX platform was built in its entirety by Ronald Antonio Cadet. Its architecture — including the 7-Agent AI mesh, sovereign operating protocols, kill-switch system, member slice model, K-Factor engine, and dynasty governance layer — constitutes a unique technical fingerprint that is documented, timestamped, and legally protected.

Any individual or entity that copies, re-implements, or derives a product from the logic, structure, or design of this platform — in whole or in part — without the express written permission of Ronald Antonio Cadet is committing:

- Trade secret misappropriation (18 U.S.C. § 1836)
- Copyright infringement (17 U.S.C. § 501)
- Willful infringement subject to treble damages
