3C ONYX

REAL GROWTH PLAN

10 Million Members · 4 Growth Engines · $2M Total Capital · Self-Funding at Scale

For: Venture Capital · Banking & SBA · Government · Legal Counsel

VENTURE CAPITAL | BANK / SBA | GOVERNMENT | LEGAL / LAW FIRM

This document presents the honest, professional growth plan for 3C ONYX. It is not a traditional startup plan with expensive paid acquisition. It is a community-driven, influencer-fueled, referral-compounded growth model that reflects how the automotive industry actually spreads — through trust, through results, and through community. The total outside capital required to reach 10 million members is $2,000,000.

PLATFORM STATUS Fully built and operational — live as of March 2026. Not a prototype.
CURRENT MEMBERS 0 — pre-launch, invite-only activation pending capital
TARGET 10,000,000 members in 30–36 months
TOTAL CAPITAL $2,000,000 — covers Phase 1 and Phase 2 completely
PHASE 3 Self-funded by Dynasty Fee revenue — zero outside capital required
SEED ROUND $2,000,000 — this is the ask. One round. No bridge needed.
VALUATION BASIS $150,000,000 founder valuation — replacement cost + IP moat + AI-native premium
FOUNDER Ronald Antonio Cadet · Ron3C · CUXTOMCANDYCLUB LLC

WHY AUTOMOTIVE SPREADS FASTER THAN ANY OTHER CATEGORY

Most industries require years of paid advertising before word-of-mouth kicks in. Automotive is different. A car purchase is one of the three biggest financial decisions a person makes — after a home and a marriage. People talk about it. They post about it. They bring others.

- Every deal closed is a story. "ONYX got me financed when the dealer said no" travels through a community in hours — not weeks.
- Cars are photographed, posted, and celebrated. Every member who drives their ONYX-facilitated vehicle is a brand impression.
- Insurance savings are dramatic and shareable. A member saving $200/month tells everyone they know — because it changes their life.
- The runner network creates physical brand touchpoints. Every service job in a neighborhood is a live demonstration.
- WhatsApp group chats in target communities (Caribbean, Latin American, underserved US) spread referrals at zero cost.
- Nubank benchmark: $2M seed, 300M+ members, less than $5 CAC. Same model. Same communities. Automotive pain is more urgent than banking.

CONFIDENTIAL · © 2026 CUXTOMCANDYCLUB LLC · FOR QUALIFIED PROFESSIONAL REVIEW ONLY

SECTION 1 — THE 4 GROWTH ENGINES

Each engine costs almost nothing to operate. All four are already built into the platform.

Most platforms spend $10M–$50M on paid advertising to reach scale. 3C ONYX does not need to. The platform was built with four self-funding, community-native growth engines that cost a fraction of traditional customer acquisition — and compound over time rather than requiring constant spending.

01 MICRO-INFLUENCER NETWORK

Automotive community voices who earn permanently, not per post

How it works: Partner with 50–100 automotive micro-influencers (10K–200K followers). 70% operate on Dynasty Fee rev-share — they earn 3% on every transaction from every member they bring in, permanently. Only 30% receive small cash payments ($300–$500 per post). The Dynasty Fee model means top performers earn $5,000–$20,000/month — far more than a flat fee.

Who they are: Car review creators, dealership insiders, finance educators, insurance advisors, automotive lifestyle content creators — all targeting the exact communities ONYX serves.

Why they work: Micro-influencers have 5–10x higher engagement than celebrities. Their audiences trust them. An authentic review from a 50K-follower automotive creator converts at 3–8% — versus 0.1–0.5% for paid social.

50 influencers × 5% audience conversion × 20K avg followers = 50,000 members in 6 months

$30,000–$50,000 total cash cost to seed 50 influencer partnerships (the rest is rev-share — they pay for themselves)

02 UGC CONTENT FLYWHEEL

Members create the marketing — Dynasty Fee is the incentive

How it works: Members who get real results — approved financing, insurance savings, a successful deal — naturally share their story on TikTok, Instagram Reels, and YouTube Shorts. The Dynasty Fee gives them a financial reason to share: every member they refer earns them 3% on that member's transactions permanently.

The content writes itself: "I saved $340/month on car insurance." "ONYX found me 2,200 lenders when the dealer said I had no options." "My runner delivered my car so I didn't miss a day of work." These stories are more powerful than any ad.

Cost structure: Zero paid content budget. The Dynasty Fee is the incentive. A member who refers 10 people who each spend $500/month earns $150/month passively — that is worth more than any cash payment and it costs ONYX nothing up front.

$0–$3 CAC from UGC channel — the Dynasty Fee funds itself from the revenue it generates

30–40% of total member growth projected to come from UGC and organic referral content

03 RUNNER AMBASSADOR GROUND GAME

Independent gig workers who are also brand ambassadors in the physical world

How it works: Every ONYX runner (independent gig worker) wears the brand, uses the ONYX app, and interacts with real people in real neighborhoods. Every delivery, DMV run, inspection, or vehicle drop-off is a physical brand touchpoint. Runners receive a $20 bonus for every new verified member they bring to the platform.

The math: 500 runners × 20 jobs per month = 10,000 brand touchpoints per month. At 10% referral conversion, that is 1,000 new members per month from the runner network alone — at a cost of $20 per member.

Cost structure: Branded kit per runner (shirt, hat, decal): $50–$100. Referral bonus: $20 per verified member. At 1,000 new members per month: $20,000/month. That's $0.002 per member impression and $20 per converted member — among the lowest CAC in any industry.

$20 cost per member acquired through the runner network — fully traceable, no waste

1,000+ new members per month from runners alone once 500 operators are deployed

04

WHATSAPP REFERRAL CHAIN

The compounding flywheel that costs $0 to operate

How it works: Every member gets a unique ONYX referral link. When they share it via WhatsApp — the primary communication platform in Caribbean, Latin American, and underserved US communities — and someone joins through their link, they earn Dynasty Fee income on that member's activity. Sharing is financially motivated, culturally native, and requires zero effort from ONYX.

K-factor target: K = 2.0 means every member brings in 2 more. At K = 2.0: 1,000 seed members !' 2,000 !' 4,000 !' 8,000 !' 16,000 !' 32,000 !' 64,000. In 7 doubling cycles, 1,000 seeds reach over 1 million members. The math is not optimistic — it is the Nubank benchmark in practice.

Nubank validation: Nubank launched in Brazil with $2M, serving underserved communities without bank access. WhatsApp referrals were 80%+ of their growth. They now have 300 million members. The target communities for ONYX — Caribbean-American, Latino-American, underserved Black American households — are WhatsApp-primary. The model maps exactly.

K = 2.0 each member refers 2 more — 1,000 seeds reach 1 million members in 10 doubling cycles at zero marginal cost

$0 marginal cost per referral — the platform, the link, and the incentive are all already built

SECTION 2 — THE $2M CAPITAL PLAN

Two phases. $2M total. Phase 3 is funded by the business itself.

The reason this platform can reach 10 million members on $2M — when competitors spend 10x that — is structural. The Dynasty Fee model means influencers, creators, and runners are all partially compensated by revenue the platform generates, not by capital the investor provides. The growth engine is designed to pay for itself from the first transaction.

PHASE 1 — IGNITION · Months 1–6 · 0 to 50,000 Members — $500,000

LINE ITEM	AMOUNT	NOTES
Legal activation (phased minimum)	$75,000	LLC/trust structure, dealer license filing, insurance referral compliance, money transmitter analysis. Phased — only what is
50 micro-influencer partnerships (mix)	$30,000	30% paid at $300–$500/post ($15K), 70% pure Dynasty Fee rev-share ($0 cash). These partnerships pay for themselves
Runner launch — 50 operators	$7,500	Branded kit ($100/runner), WhatsApp training group, referral tracking setup. $20 bonus per verified member they bring in
Cloud infrastructure & ops (6 months)	$25,000	Platform is already built. Ops cost at early stage: $300–$500/ month for hosting, monitoring, and database.
Community manager hire (6 months)	$45,000	One key hire: community manager who runs influencer relationships, UGC campaigns, and WhatsApp referral
Founder operational runway (6 months)	$90,000	Founder salary/living expenses during the critical first 6 months. Non-negotiable for full focus.
UGC seeding & contests	$15,000	Launch challenge prizes, first UGC campaign, community events to generate authentic content.
Working capital buffer	$212,500	Reserve for unexpected legal costs, runner incentives, influencer overages, and operational contingency.
PHASE 1 TOTAL	**$500,000**	

PHASE 2 — EXPANSION · Months 6–18 · 50,000 to 500,000 Members — $1,500,000

LINE ITEM	AMOUNT	NOTES
Runner network expansion — 500 operators	$175,000	Scale from 50 to 500 runners across 5 cities. Branded kits ($50K) + city coordinator stipends ($125K). Runner bonuses
Influencer network — 100 partners	$75,000	Expand from 50 to 100+ partners. Same 70/30 rev-share/cash split. Revenue from Phase 1 partially funds this.
Team growth (6 people total)	$600,000	Operations lead, 2 community managers, compliance officer, runner coordinator, customer success. $8K–$12K/month
UGC campaigns & community events	$75,000	Regional meetups, challenge campaigns, UGC prize pools. These generate authentic content and member acquisition
Caribbean & Latin America launch	$150,000	WhatsApp-native markets. Translation, local influencer seed partnerships, legal compliance in target countries. Highest ROI
Cloud scaling & security	$75,000	Infrastructure scales with member count. Platform already built — this is hosting, monitoring, and SOC2 hardening costs.
Legal & compliance expansion	$100,000	Multi-state licensing, money transmitter filings, carrier agreements as revenue scales. Ongoing compliance counsel.
Working capital & contingency	$250,000	Buffer for runner bonuses, influencer overages, unexpected legal costs, and operational surprises.
PHASE 2 TOTAL	**$1,500,000**	

PHASE 3 — SCALE · Months 18–36 · 500,000 to 10,000,000 Members — SELF-FUNDED

Phase 3 requires zero outside capital. Here is why:

- 500K members × 10% transacting monthly = 50,000 transactions/month
- Blended average transaction: $1,500 (auto purchase $8K + services $200 blended)
- 50,000 × $1,500 × 3% Dynasty Fee = $2,250,000/month from Dynasty Fee alone
- Plus subscriptions ($10–$50/month) + insurance referrals + runner commissions + B2B licensing
- Conservative total monthly revenue at 500K members: $3,000,000–$5,000,000
- Monthly operating cost at that scale: $600,000–$900,000 (team, cloud, runners, legal)
-

Monthly surplus available to fund Phase 3 expansion: $2,100,000–$4,100,000

- Phase 3 expansion cost (international, 2,000 runners, 30-person team): $800K/month
- Conclusion: Phase 3 is completely funded by the business. No dilution. No outside capital.

TOTAL OUTSIDE CAPITAL — 0 TO 10 MILLION MEMBERS

$2,000,000

Phase 1: $500K + Phase 2: $1.5M + Phase 3: $0 (self-

SECTION 3 — FOR EACH AUDIENCE

The same facts, framed for each reader. All text below is fully copy-paste ready.

FOR VENTURE CAPITAL INVESTORS

This is a pre-revenue community-growth play with built-in viral mechanics, a self-funding revenue model, and a founder with 10+ years of insider domain expertise. The $2M seed covers two full phases of growth. Phase 3 is funded by the business. No Series B required to reach 10M members.

TOTAL RAISE $2,000,000 seed round
VALUATION $150,000,000 (founder's valuation — replacement cost + AI-native premium)
CAC BLENDED $3–$7 (influencer rev-share, UGC $0–$3, runner $20, WhatsApp $0)
LTV (YEAR 3) $420–$840 per member (3% Dynasty Fee on $14K avg lifetime spend + subscriptions)
LTV:CAC RATIO 60:1 to 120:1 — best-in-class for any marketplace or platform business
K-FACTOR TARGET 2.0 — each member brings 2 more. Validated by Nubank in identical communities.
REVENUE AT 500K $3M–$5M/month (Dynasty Fee + subscriptions + referrals + B2B)
EXIT COMPARABLES Nubank ($30B), Carvana ($9B peak), OAK Street Health ($5.3B)
SERIES A TRIGGER 10,000 members + first $10K MRR unlocks institutional Series A at $20M–$50M
CATEGORY Automotive Super App — no direct competitor exists in this specific market

FOR BANKS & SBA LENDERS

3C ONYX is seeking an SBA Express loan of $150,000–$350,000 as a Phase 1 capital bridge. The platform is fully built with documented replacement value exceeding $3.5M. Loan proceeds fund legal activation and initial operating costs — not product development. Build risk is zero.

LOAN PURPOSE Legal activation, operating expenses, and initial go-to-market for a live technology platform
LOAN AMOUNT $150,000 – $350,000 (SBA Express)
COLLATERAL BASIS Platform IP valued at $3.5M+ replacement cost — the technology is the collateral
REPAYMENT SOURCE Membership subscriptions and Dynasty Fee transaction income — begins at first member
BUSINESS TYPE Software-as-a-Service (SaaS) + marketplace transaction fee — predictable recurring revenue
NAICS CODES 522390 (Credit Intermediation Activities) / 541511 (Custom Computer Programming)
ENTITY CUXTOMCANDYCLUB LLC — Florida registered, single-member LLC
DEPOSIT ON FILE $12,000 at Citizens Bank
BUILD RISK Zero — platform is fully built, tested, and operational. Capital is for activation only.

FOR GOVERNMENT AGENCIES & GRANT PROGRAMS

3C ONYX directly addresses systemic economic inequality in automotive access, financial services, and community wealth creation. The platform is founded by a Black entrepreneur and designed specifically for the communities most harmed by predatory lending, discriminatory insurance pricing, and limited access to fair automotive financing.

FINANCIAL INCLUSION Connects members to 2,200+ lenders without bias by zip code, race, or neighborhood
INSURANCE EQUITY AI agent eliminates discriminatory rate-setting — members get the rate they

deserve, not the default

JOB CREATION Runner network creates independent contractor income for community members with zero startup cost

CREATOR ECONOMY Dynasty Fee model creates passive income for community members who grow the network

GRANT ELIGIBILITY CDFI grants, SBA Community Navigator, MBDA programs, state fintech innovation grants

RELEVANT SDGS SDG 1 (No Poverty), SDG 8 (Decent Work), SDG 10 (Reduced Inequality), SDG 11 (Sustainable Communities)

FOUNDER PROFILE Black entrepreneur, 10+ years automotive industry expertise, building for his own community

ECONOMIC MULTIPLIER Every $1M in ONYX transactions generates $30K in Dynasty Fee income redistributed to community members

---

FOR LEGAL COUNSEL & LAW FIRMS

The following five legal matters require immediate attention and are directly tied to Phase 1 capital deployment. Estimated total legal budget for Phase 1: $75,000 (phased — only what is needed to launch first).

P1 — IMMEDIATE **Entity Structure & Investment Readiness**

Convert or restructure CUXTOMCANDYCLUB LLC for seed investment. Options: C-Corp conversion (Delaware), holding company with Florida operating LLC, or Dynasty Trust overlay for IP protection. Must be complete before any investment closes. Budget: $10,000–$20,000.

P1 — IMMEDIATE **IP Ownership & Assignment**

All intellectual property — platform code, AI agent logic, brand assets, trademarks, domain names — must be formally assigned from founder to operating entity prior to any investment. Non-negotiable for any investor. Budget: $3,000–$5,000.

P1 — PRE-LAUNCH **Automotive Dealer License Analysis**

Determine whether ONYX's AI-facilitated marketplace model requires a dealer license in Florida and target states, or qualifies as a referral/technology platform exempt from dealer licensing. Critical for launch. Budget: $5,000–$10,000.

P2 — PRE-REVENUE **Money Transmitter & Dynasty Fee Compliance**

Analyze whether the Dynasty Tech Fee (3% collected on transactions) and runner payment flows require money transmitter licensing under FinCEN, Florida OFR, or state MSB rules. Determine safe harbor structure. Budget: $8,000–$15,000.

P2 — PRE-REVENUE **Insurance Referral Compliance**

Confirm permissible referral fee structures with licensed insurance carriers in each state of operation. Distinguish clearly between referral activity (permissible without license) and brokerage activity (requires license). Budget: $5,000–$10,000.

SECTION 4 — THE ASK

One round. $2M. The entire model is funded.

This is a $2,000,000 seed round. It is not a bridge. It is not a first tranche. It is the complete capital requirement to activate Phase 1 and Phase 2, after which the platform funds itself from Dynasty Fee revenue.

$150,000–$350,000 · SBA Bridge / First Check

- Legal activation complete: entity structure, IP assignment, dealer license, compliance
- First 1,000 members onboarded via invite-only ONYX Access Key
- First 10 influencer partnerships activated (rev-share model)
- First revenue transaction closed — Dynasty Fee begins flowing
- Platform publicly accessible for the first time

$500,000 · Phase 1 Complete

- All Phase 1 deliverables above, plus:
- 50 micro-influencer partnerships — 50,000 member target within 6 months
- 50 runners deployed in first 2 markets — brand touchpoints live
- WhatsApp referral engine fully active — K-factor measurable
- Community manager hired — UGC campaign running
- First institutional traction data: CAC, referral rate, first retention metrics

$2,000,000 · Full Seed Round — Phase 1 + 2

- All Phase 1 and Phase 2 deliverables:
- 500,000 member target within 18 months
- 500 runners in 5 US cities + Caribbean/Latin America expansion launched
- 100+ influencer partners — 70% on Dynasty Fee rev-share
- Full team of 6–8 people operational
- All 13 revenue streams generating monthly recurring revenue
- Series A ready: live traction metrics, unit economics documented, $3M+ MRR
- Phase 3 (500K to 10M members) funded entirely by the business — no further raise needed

---

THE ONE THING THAT UNLOCKS EVERYTHING

The platform is built. The bottleneck is the first 1,000 members.

Revenue. Series A. 10 million members. All of it flows from that one milestone.
