CUXTOMCANDYCLUB LLC
Ronald Antonio Cadet — Founder & CVO
NY Entity ID: 7788320 · Formed December 21, 2025
Domains: 3conyx.ai · 3conyx.com · cuxtomcandyclub.ai · cuxtomcandyclub.com

Compiled from live codebase · July 22, 2026
PROPRIETARY & CONFIDENTIAL

SECTION 1 — TECH STACK & APIs

1.1 Core Platform (built & running)

Backend: Node.js 24 + TypeScript 5, Express 5
Database: PostgreSQL with Drizzle ORM (SOC2 audit-trail schema)
API Surface: 172 route groups · 969 REST endpoints (594 GET / 343 POST)
Type-Safe API: tRPC layer at /api/trpc
AI Protocol: MCP server at /api/mcp (LLMs can call the platform directly)
Real-Time: WebSocket Hub at /ws + Server-Sent Events
Web App: React + Vite (3c-onyx) — "Apple × GTA" cinematic design system
Mobile App: Expo / React Native (3c-onyx-mobile) — iOS + Android
Validation: Zod schemas across every endpoint
Testing: Vitest suite — 188 automated tests across 11 files
Monorepo: pnpm workspaces + esbuild + Orval codegen
Cloud Design: AWS-ready: Route 53, CloudFront, S3, ALB, ECS Fargate, RDS
Security: JWT (HS256) + WebAuthn biometrics + OAuth, Helmet, rate limiting, idempotency guard, fraud scoring

1.2 AI Engine (LIVE)

- **OpenAI** — primary engine for ONYX Brain, agents, vision OCR
- **Google Gemini** — multi-modal vehicle analysis, fallback routing
- **Anthropic Claude** — advanced reasoning in the Agent Mesh
- **Sovereign AI Router** — multi-provider fallback chain (PAT-05) — task-class routing across all providers
- **12-Agent UACL Mesh + 7-Agent Transaction Mesh** — Sales, Finance, Service, Manager, Logistics, Network, Support, Guardian, Concierge + more
- **Fortress Governor** — three-tier AI safety: AUTO_EXECUTE / SUGGEST / HALT with explainability

1.3 Payments & Fintech APIs (wired, activating with keys)

- **Stripe + Stripe Connect** — payments, escrow, instant commission payouts, webhooks, reconciliation
- **Stripe Identity** — identity verification
- **Plaid** — bank account linking & net-worth verification

1.4 Automotive Data & Operations APIs (wired in code)

- **MarketCheck** — live vehicle market data & pricing
- **NHTSA vPIC** — federal VIN decoding (public, live)
- **Smartcar** — vehicle telematics — odometer, location, EV battery
- **AWS Rekognition** — AI vision damage inspection
- **MOTOR / Predii** — vehicle history & automotive AI (planned tier)
- **DocuSign** — e-signatures for deal documents
- **Checkr** — background checks for runners & specialists
- **Mapbox** — maps, geocoding, runner tracking
- **HONK / CarTrawler / Loopit / InsureMO / Spinwheel** — roadside, rental, subscriptions, insurance, liability (planned tier)

1.5 Logistics & Carrier Network

- **Transporter Agent** — interstate logistics engine (PAT-08) — Haversine routing, 12+ state compliance matrix
- **Carrier Mesh** — Ship.cars, RunBuggy, Montway, AmeriFreight, uShip, Enclosed Elite
- **HyperTrack** — logistics tracking

1.6 Growth, CRM & Communication APIs

- **Twilio WhatsApp Business** — member notifications & Text-to-Deal
- **HubSpot** — CRM & deal pipeline
- **TikTok Ads + Axon Pixel** — advertising & attribution
- **Constant Contact** — email marketing
- **Expo Push** — mobile push notifications
- **Browserbase / Gumloop** — browser automation & AI workflows ("Paperwork Killer")
- **API2Cart** — eCommerce bridge
- **Namecheap API** — automated domain management (3conyx.ai + portfolio)
- **Fullpath** — automotive data intelligence

SECTION 2 — REVENUE STREAMS / CASH FLOWS

The platform runs a "tollbooth" model: a fee on every transaction that moves through the 3C Mesh, plus recurring subscriptions and tiered commissions. All engines below exist in production code.

2.1 Dynasty Tech Fee — the core tollbooth

3.0% of every mesh-routed transaction (deals, service jobs, logistics). Default split: 2% to the referring professional (Bird-Dog), 1% to CUXTOMCANDYCLUB LLC. Direct-funded deals capture the full 3% for the platform. Auto-settled via Stripe Connect in seconds.

2.2 Per-Vehicle Deal Fee

$150–$300 flat efficiency fee per vehicle transaction.

2.3 Membership Subscriptions

$99/month Founding Member tier — gates AI features, marketplace data, and wallet operations. 20% commission category on membership sales.

2.4 Universal Commission Engine (15 categories)

Vehicle purchase: 3%
Service & repair: 8%
Parts & accessories: 5%
Insurance / aftermarket: 4–6%
Membership referrals: 20%

2.5 Logistics Revenue

3–20% commissions on parts, service, transport and aftermarket routing. Dynasty Logistics Fee: 3% on every carrier transaction (at 10,000 interstate transactions/month "H $3.4M/year recurring).

2.6 Referral & Attribution Network

Universal Attribution Engine: 5-level-deep referral tree with diminishing commission rates, blockchain proof stamping. Street-Level Distribution Network captures QR scans at physical nodes (gas stations, mechanic bays) and pays the referrer forever.

2.7 Distribution Hub Tier Ladder

Member !’ Connector !’ Hub !’ Super Hub !’ Distribution Center. Each tier upgrade unlocks larger commission splits and features (Katamari Growth Model) — a built-in upsell path.

2.8 Additional Streams

- **Escrow orders** — vehicle escrow with Stripe Connect
- **Vehicle Customization Hub** — fleet mode, volume pricing, instant quotes
- **Marketplace / Apparel & Powersport catalog / eCommerce bridge**
- **Data licensing** — National Integrity Ledger + Vendor Performance Metadata (see Section 3.5)

2.9 Scale Math

1,000 dealers × ~$300/mo "H $3.6M/yr · 10,000 dealers "H $36M/yr — before transaction fees. The 3% tollbooth compounds on top of every deal, service job, and shipment in the network.

SECTION 3 — INTELLECTUAL PROPERTY (57+ ASSETS)

Full detail lives in LEGAL_IP_MANIFEST.md (v3.0). Sole author: Ronald Antonio Cadet. Owner: CUXTOMCANDYCLUB LLC. Origin trace: 3CONYX-RAC-20260328-SOVEREIGN-ORIGIN-LOCKED.

3.1 Trademarks (7)

- **TM-01 CUXTOMCANDYCLUB** — primary word mark — CRITICAL
- **TM-02 3C ONYX** — primary word mark — CRITICAL
- **TM-03 7-AGENT AI MESH** — service mark
- **TM-04 GUARDIAN AGENT** — product sub-brand
- **TM-05 COMPLAINT · CAUSE · CORRECTION** — slogan / method mark
- **TM-06 THE SOVEREIGN AI SUPER APP** — positioning mark
- **TM-07 V.I.P. — VERIFIED INTEGRITY PROTOCOL** — technical service mark — CRITICAL

3.2 Trade Secrets (5)

- **TS-01 Agent Orchestration Layer** — shared Neural Memory, atomic state-locking across agents
- **TS-02 Guardian VIN Handshake** — federal integrity algorithm + Honey Token origin trace
- **TS-03 Shadow-Broker Routing** — 3% Global Tech Fee optimizer & Dynasty split logic
- **TS-04 S1–S3 Proprietary Data Schemas** — supply chain, vehicle health (40+ makes), logistics mesh
- **TS-05 Bird-Dog Commission Engine** — referral-ID-to-VIN ledger with instant Stripe Connect settlement

3.3 Utility Patent Candidates (8)

- **PAT-01 NVIS Transaction Enforcement** — AI federal compliance at point of transaction
- **PAT-02 Physical-to-Digital Asset Verification** — SDA architecture, ECU+VIN+odometer handshake
- **PAT-03 Deterministic Agentic Mesh** — zero-hallucination multi-agent AI architecture
- **PAT-04 Unified Lifecycle Transaction Engine** — cross-domain synthesis: referral + warranty + vault + logistics
- **PAT-05 Sovereign AI Router** — multi-provider LLM orchestration with fallback chain
- **PAT-06 Automotive Union Mesh** — territory-keyed professional node registry
- **PAT-07 Unified Automotive Command Platform** — 9-intent natural language router with live DB execution
- **PAT-08 Interstate Vehicle Logistics Engine** — carrier selection + state compliance + DVP stamping

3.4 Copyrights (3)

- **CR-01 Full Platform Codebase** — Dec 2025 – Mar 2026
- **CR-02 G-Code Interface** — federal dashboard UI/UX
- **CR-03 3C Digital Passport** — sovereign vehicle identity report

3.5 Data Sovereignty Assets (2)

- **DIP-01 National Integrity Ledger** — verified vehicle data set — $1B+ potential at 1M vehicles
- **DIP-02 Vendor Performance Metadata** — dealer/service node ratings — $6M ARR at 1,000 dealers

3.6 Named Proprietary Systems (brand-level IP)

UACL (Unified Automotive Command Layer) · ONYX AI Mode · DealerFlow OS · Deal Command Center · ONYX Proof Engine · Digital Vehicle Passport · Broker AI Deal Desk · Paperwork Killer · Transporter Agent · Fortress Governor · Auto Pulse · Omni-Node Open Intake · Invisible Funnel Protocol · Michelin Demand Engine · Katamari Growth Model · ONYX Wallet · Genesis Protocol · Sovereign Behavioral Execution Engine · C-Suite Doctrine Agents (18) · ONYX Automotive OS v4.0.0-ULTRA
