3C ONYX

Super App · Luxury Automotive · Built for the World

CUXTOMCANDYCLUB LLC · Founder: Ronald Antonio Cadet · CONFIDENTIAL

The 1 Billion Member Game Plan

A plain-English investor brief — platform economics, growth model, and full execution roadmap.

What Is 3C ONYX?

3C ONYX is a luxury automotive Super App — the first closed-loop platform where members buy, finance, insure, maintain, and sell vehicles entirely inside one ecosystem. No dealership negotiation. No price comparison. ONYX acts; the member confirms. Built by CUXTOMCANDYCLUB LLC and founder Ronald Antonio Cadet, 3C ONYX is designed to serve the 132 million Americans and global citizens who have been chronically underserved by the traditional automotive industry.

$2.1 Trillion
US Auto Industry Annual Revenue

132 Million
Underserved Target Member Base

$251 Billion
Projected Valuation at 1B Members

Growth Model — Path to 1 Billion Members

The platform is already built and live. Three compounding growth channels drive the model:

- K-Factor 1.25 — Every 100 members organically refer 125 more. Compounding monthly from day one.
- Creator Army — 10,000 paid ambassadors earning 20% commission, posting continuously across TikTok, YouTube, and Instagram.
- B2B2C Institutional Deals — Single partnership agreements that deliver millions of members at once (credit unions, church networks, NAACP, dealer groups, Latin America and Africa via WhatsApp).

TIMELINE	MEMBERS	WHAT DRIVES IT
Month 1	150,000 members	Creators + I-95 outreach engine + waitlist converts
Month 3	1 Million members	First institutional deal signed, creator army at 500 active
Month 5	+50M from global	Latin America and Africa WhatsApp launch fires

Month 6-8	5M in 72 hours	60 Minutes / Breakfast Club press moment lands
Month 12	111 Million members	Flywheel at full speed — 100M milestone crossed
Month 17	574 Million members	Second institutional wave, 10,000 creators active
Month 19	**1.05 BILLION**	Network effects at planetary scale — 1B milestone reached

Revenue Model at 1 Billion Members

TIER	CALCULATION	ANNUAL REVENUE
Premium Members (15%)	150,000,000 × $99/year	$14.8 Billion
Standard Members (85%)	850,000,000 × $12/year in fees	$10.2 Billion
TOTAL ANNUAL REVENUE AT 1B MEMBERS		**$25.1 Billion**

B2B2C Institutional Pipeline — 115 Million Members

INSTITUTION / CHANNEL	PROJECTED MEMBERS
Credit Union Federation (500 credit unions)	15,000,000
National Baptist Convention	8,000,000
NAACP Network + Affiliates	2,000,000
Latin America — WhatsApp Viral Launch	50,000,000
Africa and Diaspora — WhatsApp Viral Launch	30,000,000
5,000 Dealer Group Referrals	10,000,000
HBCU Network (100+ schools)	300,000
TOTAL B2B2C PIPELINE	**115,300,000**

The Team — 6 People to 1 Billion

Ronald Antonio Cadet — Founder & CEO	Vision, brand, culture, and product direction. The face and force of ONYX.
Person 1 — Head of Partnerships	Signs institutional deals with credit unions, church networks, and dealer groups. One deal = 10M members overnight.
Person 2 — Head of Creator Relations	Manages 10,000 creator ambassadors. Keeps the army active, earning, and posting.
Person 3 — Head of International	Drives Latin America and Africa via WhatsApp. Bilingual. Adds 80M members to the model.
Person 4 — Head of Communications	Lands the 60 Minutes, Breakfast Club, or Essence moment. Adds 2 to 5M members in 72 hours.
Person 5 — Attorney (Retainer)	Clears 5 pre-launch legal items. Protects the $251B valuation from regulatory risk at scale.

The 5 Power Moves

1. B2B2C Institutional Blitz
Sign 7 partnership deals with credit unions, church networks, NAACP, HBCUs, and dealer groups. Delivers 115 million members in organized blocks — not one at a time.

2. The Creator Army
10,000 paid creator ambassadors earning 20% commission, posting continuously. Self-funding distribution — creators earn when ONYX grows, so they never stop.

3. WhatsApp Goes Global Day 1
Launch in English, Spanish, and Portuguese simultaneously. Latin America and Africa add 80 million members that every US competitor cannot reach.

4. The Founding Member Clock
First 100,000 members get locked pricing for life. A live public countdown drives urgency and creates a cultural moment when spots run out.

5. One Press Moment
60 Minutes, The Breakfast Club, Essence, or Univision. One story about the mission and the founder adds 2 to 5 million members in 72 hours. Not tech press — culture press.

Bottom Line

The platform is built, the engines are live, and the math is clear. With K-Factor 1.25 alone — zero paid advertising — the model reaches 1 billion members by month 40. With the Creator Army, B2B2C institutional channels, and WhatsApp global distribution all active, the model reaches 1 billion by month 19. At that scale, annual revenue is $25.1 billion and the valuation exceeds $251 billion.

Six people run this. The platform does the work of 200. The only variable is when the switch gets flipped.
