3C ONYX

GROWTH & CAPITAL BRIEF

Path to 10 Million Members · $18M Total Capital Required · 30–36 Month Timeline

Prepared for: Venture Capital · Banking · Government · Legal

VENTURE CAPITAL **BANK** **GOVERNMENT** **LEGAL / LAW FIRM**

This brief presents the growth plan, capital requirements, and business case for 3C ONYX — a fully built, AI-powered automotive and financial services platform. The platform is live today. No members have been onboarded yet. This document explains what it will take to reach 10 million members, how long it will take, and exactly how much capital is required at each stage.

PLATFORM STATUS Fully built and operational — live as of March 2026
CURRENT MEMBERS 0 (pre-launch — invite-only launch pending capital)
TARGET MEMBERS 10,000,000 (10 million)
TIMELINE 30 to 36 months from first capital close
TOTAL CAPITAL $18,000,000 across three phases
SEED ROUND ASK $2,000,000 – $10,000,000 (Phase 1 + Phase 2 start)
PLATFORM VALUATION $150,000,000 (pre-revenue, builder's valuation basis)

The platform exists. This is not a business plan. This is a capital deployment plan.

3C ONYX is a fully operational technology platform. Every feature described below is built, tested, and live as of March 2026. Capital is required to launch, not to build.

76-page platform — Complete web application with marketplace, member dashboard, finance hub, insurance center, creator economy, KYC onboarding, runner dispatch, and admin tools.

Native mobile app — Full iOS and Android application built with Expo — same features as the web platform, available on both major mobile operating systems.

12 AI agents deployed — Proprietary multi-agent system: AI Concierge (car buying), Trust Agent, Insurance Agent, Finance Agent, Runner Agent, Wisdom Engine, Creator Agent, KYC Agent, and more.

Payment processing — Stripe integration — membership subscriptions, one-time transactions, and the 3% Dynasty Tech Fee collected automatically on qualifying transactions.

WhatsApp messaging — Automated member communication, referral notifications, and support pipeline — fully operational.

KYC compliance — Identity verification flow — members can verify and transact legally on day one.

2,200+ lender network — Credit intelligence and loan pre-qualification connected to over 2,200 lending partners — matched by financial profile, not zip code.

Insurance & GAP — Real auto insurance and GAP coverage quotes delivered inside the platform — no redirect to a third-party site.

Blockchain VIN records — Tamper-proof vehicle ownership and service history stored on-chain — permanent, unalterable records.

Runner economy — Gig runner dispatch system for automotive service delivery — verified operators, GPS routing, and task management.

Revenue begins the day the first member transacts.

1.

YX Membership Subscriptions — Monthly or annual membership fees — tiered by access level.

2. **Dynasty Tech Fee (3%)** — A 3% fee collected on every qualifying automotive transaction processed through the platform. This is the core toll-

road revenue model.

3. **Automotive Finance Origination** — Referral and origination fees from 2,200+ lending partners when members secure financing.

4. **Insurance & GAP**

Referral Fees — Carrier referral commissions when membe

.

5. **Runner Task Commissions** — Commission on every gig runner task dispatched — vehicle delivery, DMV runs, title transfers, logistics.

6. **Dealer & Fleet B2B Licensing**

— Monthly licensing fees paid by dealerships, fleet operators, and automotive businesses to access the platform.

7. **ONYX Source Procurement** — Margin on wholesale parts and vehicle procurement sourced through the ONYX supplier network

k.

8. **Parts Marketplace** — Retail margin on automotive parts sold through the platform marketplace.

9. **Custom Build Configuration** — Revenue from members configuring custom vehicles — build fees and configuration access.

10. **Creator Affi**

liate Network — Percentage of creator-driven transactions — content creators who bring members earn a share of the Dynasty Fee.

11. Premium Concierge Services — White-glove automotive and financial advisory services billed per engagement.

12. **Data Intelligence** — Anonymized, consented market data sold to automotive industry partners and lenders (with member permission).

13. **Extended Warranty Referral** — Referral commissions on extended warranty products matched to members

during the vehicle purchase flow.

Three phases. 30 to 36 months. $18 million total.

Growth is driven by three compounding forces already built into the platform: (1) WhatsApp referral infrastructure, (2) the Dynasty Fee creator incentive model, and (3) a mobile-first experience optimized for the communities we serve. Every member who benefits has a financial incentive to refer the next member.

PHASE 1 — IGNITION · Months 1 – 6

0 to 10,000 Members | Capital: $1,500,000

KEY ACTIONS

- Legal activation complete: Dynasty Trust, LLC structure, automotive dealer license, money transmitter exemption, insurance referral compliance.
- Invite-only ONYX Access Key launch — first 1,000 members seeded personally by founder and initial creator partners.
- Activate 10 automotive content creators and influencers with existing audiences in the target community.
- WhatsApp referral engine live — every member gets a unique referral link; Dynasty Fee creators earn on every referred transaction.
- At a K-factor of 1.5 (each member refers 1.5 more), 1,000 seeds reach 10,000 members within 4–6 months organically.
- First revenue dollar: first deal closed, first runner task dispatched, first finance origination completed.

USE OF $1,500,000 CAPITAL

Legal activation (trust, licenses, compliance): $300,000
First 10 creator partnerships and launch marketing: $250,000
Cloud infrastructure and platform operations: $200,000
First 2 hires (trust/compliance, customer success): $350,000
Reserve / contingency: $400,000

PHASE 2 — EXPANSION · Months 6 – 18

10,000 to 500,000 Members | Capital: $6,500,000

KEY ACTIONS

- Paid social acquisition begins: $500–$1,000/day targeting underserved automotive buyers in top 10 US markets.
- Runner network goes live in 5 major US cities — verified operators, GPS routing, DMV and title services operational.
- B2B dealer and fleet onboarding: dealerships and fleet operators pay monthly licensing fees to access the platform.
- Creator affiliate network expanded to 50+ partners — each driving their audience into the platform referral chain.
- All 13 revenue streams active — platform is generating measurable monthly recurring revenue.
- Series A preparation: traction metrics, unit economics documented, investor materials updated with live data.

USE OF $6,500,000 CAPITAL

Paid social and influencer acquisition (12 months): $2,500,000
Runner network launch — 5 cities, operator onboarding, logistics: $1,200,000
Team expansion to 8–12 people (ops, compliance, sales, CS): $1,800,000
Infrastructure scaling (cloud, security, monitoring): $600,000
Reserve / contingency: $400,000

PHASE 3 — SOVEREIGNTY · Months 18 – 36

500,000 to 10,000,000 Members | Capital: $10,000,000

KEY ACTIONS

- Series A raised at $20M–$50M on live traction metrics — institutional automotive or fintech fund leads.
- Geographic expansion into Latin America and the Caribbean — WhatsApp-native markets perfectly suited to this platform.
- Runner network expanded to 25+ cities nationally and internationally.
- ONYX Source parts wholesale marketplace live — direct B2B procurement pipeline operational.
- Platform grows largely on its own referral flywheel — Dynasty Fee model self-funds creator acquisition at scale.
-

10 million members reached. 3% Dynasty Fee on $8T addressable annual automotive transaction volume.

USE OF $10,000,000 CAPITAL

Geographic expansion (Latin America, Caribbean, Europe): $4,000,000
Team growth to 30+ people — sales, legal, international ops: $3,500,000
Infrastructure and security at global scale: $1,500,000
Reserve / Series B preparation: $1,000,000

Total required across all three phases

Phase	Timeline	Members	Capital Required
Phase 1 — Ignition	Months 1–6	0 !’ 10,000	$1,500,000
Phase 2 — Expansion	Months 6–18	10K !’ 500,000	$6,500,000
Phase 3 — Sovereignty	Months 18–36	500K !’ 10,000,000	$10,000,000

TOTAL — 0 to 10 Million Members

The same facts, framed for each reader.

FOR VENTURE CAPITAL INVESTORS

This is a pre-revenue, pre-member seed investment in a fully built platform. The raise is $2M–$10M at a $150M founder's valuation. The platform addresses a $1.5T annual automotive transaction market, a $300B auto insurance market, and 100M+ underserved American consumers who have no comparable tool available to them today.

- Moat: 100% proprietary, closed-source platform with zero direct competitors in this category.
- AI-native: 12 autonomous agents replace $70M+/yr in human specialist cost — labor arbitrage is the business model.
- Revenue model: 13 streams including the 3% Dynasty Tech Fee — a toll-road that captures value on every transaction without holding inventory.
- Viral flywheel: WhatsApp referral + creator affiliate model built into the platform — CAC declines as the network grows.
- Exit paths: Strategic acquisition by a major OEM, insurance carrier, fintech, or financial institution. Comparable platforms: Carvana ($9B peak), OAK Street Health ($5.3B), Nubank ($30B).
- Series A trigger: 10,000 verified members + first $10,000 monthly recurring revenue unlocks institutional Series A at $20M–$50M.

FOR BANKS & SBA LENDERS

3C ONYX is seeking an SBA Express loan of $150,000 to $350,000 as the initial capital bridge to activate Phase 1. The founder has $12,000 on deposit at Citizens Bank and a fully operational technology platform with documented replacement value exceeding $3.5 million. The loan proceeds fund legal activation, initial operational costs, and the first creator partnerships required to reach the first 1,000 members.

- Loan purpose: Legal activation, operating expenses, and initial go-to-market for a live technology platform.
- Collateral basis: The platform has documented replacement cost of $3.5M+ — the IP is the collateral.
- Repayment source: Membership subscription revenue and Dynasty Fee transaction income — begins at first member onboarding.
- Business model: Software as a service (SaaS) + marketplace transaction fee — predictable, recurring revenue structure.
- NAICS classification: 522390 (Other Activities Related to Credit Intermediation) and 541511 (Custom Computer Programming Services).
- Entity: CUXTOMCANDYCLUB LLC, Florida-registered, single-member LLC, Founder Ronald Antonio Cadet.
- Risk mitigation: The platform is fully built — loan funds are for market activation, not product development. Build risk is zero.

FOR GOVERNMENT AGENCIES & GRANT PROGRAMS

3C ONYX is a mission-driven technology platform that directly addresses systemic economic inequality in automotive access, financial services, and community wealth creation. It is founded by a Black entrepreneur and designed specifically to serve underserved communities — the populations most impacted by predatory lending, discriminatory insurance pricing, and lack of access to fair automotive financing.

- Economic impact: Platform creates a direct pathway to wealth for underserved communities through the Dynasty Fee creator model — members earn income by growing the network.
- Financial inclusion: Connects members to 2,200+ lenders without bias by zip code, race, or neighborhood — matching by actual financial profile.
- Insurance equity: AI-powered insurance matching eliminates discriminatory rate-setting that costs underserved communities billions annually.
- Job creation: Runner economy and creator affiliate network create flexible income opportunities for community members with no startup cost.
- Grant alignment: Eligible for CDFI (Community Development Financial Institution) grants, SBA Community Navigator Program, MBDA (Minority Business Development Agency) programs, and state-level fintech

innovation grants.

- Relevant SDGs: SDG 1 (No Poverty), SDG 8 (Decent Work and Economic Growth), SDG 10 (Reduced Inequalities), SDG 11 (Sustainable Communities).
- Founder: Black entrepreneur, 10+ years of industry experience, building for the community he comes from.

FOR LEGAL COUNSEL & LAW FIRMS

The following legal matters require immediate attention and are directly tied to Phase 1 capital deployment. Legal counsel is needed across five areas. This document is prepared to facilitate efficient legal onboarding and scope-of-work alignment.

- Entity structure: Conversion of CUXTOMCANDYCLUB LLC to optimal structure for seed investment (S-Corp, C-Corp, or holding company with operating LLC). Florida jurisdiction. Dynasty Trust overlay for founder IP protection.
- Automotive dealer licensing: Evaluation of dealer license requirements by state for the ONYX marketplace model — whether a dealer license is required for AI-facilitated introductions vs. direct transactions.
- Money transmitter compliance: Analysis of whether the Dynasty Tech Fee (3% transaction fee) and Runner payment flow require money transmitter licensing under FinCEN, Florida OFR, or state-by-state MSB rules.
- Insurance referral compliance: Confirmation of permissible referral fee structures with licensed insurance carriers in each state of operation — distinguishing referral from brokerage activity.
- ONYX Source agreement review: Supplier and procurement agreements for the parts marketplace and wholesale vehicle sourcing — UCC Article 2 compliance, indemnification, and warranty terms.
- Seed round documentation: SAFE note or preferred equity term sheet review, cap table structuring, and investor rights agreement — counsel needed for both founder and investor sides.
- IP ownership and assignment: All intellectual property (code, agents, trademarks, brand assets) must be formally assigned from founder to operating entity prior to any investment close.

The platform is built. The only variable is capital to activate it.

Everything described in this document is built, tested, and operational. The platform is not seeking capital to build a product — it is seeking capital to deploy a product that already exists. This distinction separates 3C ONYX from nearly every investment you will review this year.

WHAT YOUR CAPITAL DOES

$150,000 – $350,000 · SBA Express Loan / Bridge Capital

Legal activation complete. First 1,000 members onboarded. First revenue transaction completed. Platform publicly accessible for the first time.

$2,000,000 · Minimum Seed Round

Phase 1 fully funded. Legal done. First 10 creator partners activated. WhatsApp referral live. First 10,000 members within 6 months. Runner network in 2 cities.

$5,000,000 · Mid-Range Seed Round

Phase 1 and partial Phase 2 funded. 50,000+ members reachable within 12 months. Runner network in 5 cities. Full team of 8–10 people. First institutional data on CAC and LTV.

$10,000,000 · Full Seed Round

Phase 1 and Phase 2 fully funded. 500,000 member target within 18 months. All 13 revenue streams fully operational. Series A ready with live traction metrics.

THE SINGLE BOTTLENECK

The platform is built. The bottleneck is the first 1,000 members.

Everything else — events, Series A, 500,000 members — flows from that single milestone.

"One person built this. ONYX is the platform this industry never knew it needed.
The communities that were overlooked are about to be served — in luxury."
