3C ONYX

CUXTOMCANDYCLUB LLC -- CONFIDENTIAL

Intellectual Property Portfolio

28+ **DISTINCT IP ASSETS**

12 Trademarkable Names/Brands | 16+ Patentable/Proprietary Systems

1. 3C ONYX
Primary platform name and brand

2. CUXTOMCANDYCLUB
Parent company name and brand

3. 3C
Abbreviated mark (logo mark)

4. ONYX Proof Engine
Vehicle verification system

5. ONYX Wallet
Payment and wallet system

6. Forrest Gump Interface
Natural language command system

7. Ask ONYX
AI assistant brand

8. ONYX Governor
Safety/compliance decision engine

9. 3C ONYX PAYOUT
ACH bank descriptor mark

10. RAC (referral prefix)
Referral code system (RAC-0001)

11. Node Zero
Launch strategy designation

12. 3C Peace Sign Logo
Upward-facing peace symbol with 3C mark (design mark)

PRIORITY FILINGS (USPTO)

1. "3C ONYX" -- Word mark (primary platform brand)
2. "CUXTOMCANDYCLUB" -- Word mark (parent company)
3. Peace sign logo -- Design mark (upward-facing peace symbol with 3C)
4. "3C" -- Word mark (abbreviated identifier)

3C ONYX

1. Universal Auto-Settle Engine

28 transaction types, 15 source channels, automated 3% commission split, proof hash on every settlement. No human approval needed. Patentable system.

PATENTABLE

2. Universal Node Type Architecture

86 node types across 13 categories. Every entity (human or machine) gets identical treatment. A robot and a janitor flow through the same payout pipeline.

PATENTABLE

3. ONYX Proof Engine

VIN hash-chain verification, 5-level trust scores, cryptographic proof of every state change. Blockchain-anchored vehicle provenance.

PATENTABLE

4. Sovereign Access Layer

Single-sovereign architecture where only the founder has full visibility. Audit trail on every access attempt. Novel access control pattern.

TRADE SECRET

5. 7-Agent Mesh Network

Sales, Finance, Incentives, Service, Logistics, Referral, and Proof agents communicating via central event bus. AI agent orchestration for automotive.

PATENTABLE

6. Forrest Gump NLP Interface

"Type what you need, the system does the rest." Text-to-Deal conversion through natural language processing. No forms, no training.

PATENTABLE

7. Dealer 20 Group Viral Protocol

Composite benchmarking engine that creates structural virality. The math sells itself -- dealers join to see how they compare.

TRADE SECRET

8. Text-to-Deal Engine

Natural language parsing that extracts deal type, budget, participants, and split percentages from plain English input.

PATENTABLE

3C ONYX

9. ONYX Governor (HITL Framework)

Three-tier confidence system: Auto-execute >90%, suggest 70-90%, halt <70%. High-risk domains (financing, insurance, payment) always escalate to human.

PATENTABLE

10. QR Street Network Protocol

Street-level transaction capture via QR codes. Any node can scan, any node gets paid. Decentralized capture layer.

PATENTABLE

11. Global Wallet & Cross-Border Settlement

30+ currency support, Plaid bank linking, automatic ACH remittance with forensic proof on every transaction.

TRADE SECRET

12. I-95 Corridor Logistics Protocol

Geographic logistics routing optimized for the automotive corridor. Regional transport coordination system.

TRADE SECRET

13. Forensic IP Branding System

Cryptographic proof chains that make every transaction forensically attributable. Each settlement carries a hash proving ownership and origin.

PATENTABLE

14. Network Effect Scoring Algorithm

Mathematical modeling of viral growth through dealer groups. Predictive scaling: 1 to 20 to 400 to 8,000 to 16,700.

TRADE SECRET

15. Circuit Breaker Resilience Architecture

Nine independently monitored circuit breakers (Stripe, Twilio, OpenAI, Anthropic, Gemini, MarketCheck, Oracle, Plaid, Places) with automatic failover.

TRADE SECRET

16. The 3C ONYX Platform

The complete integrated system as a unified trade secret -- the specific combination of all 15 systems above into one protocol.

TRADE SECRET

PROTECTION STRATEGY

TRADEMARKS (12)

File word marks and design mark with USPTO. Priority: 3C ONYX, CUXTOMCANDYCLUB, peace sign logo, 3C.

PATENTS (8 systems)

File utility patents for Auto-Settle Engine, Node Architecture, Proof Engine, 7-Agent Mesh, NLP Interface, Text-to-Deal, Governor, QR Network, Forensic IP.

TRADE SECRETS (8 systems)

Protected by keeping source code proprietary behind the Sovereign Access Layer. Never expires (unlike patents, which expire after

"28+ intellectual properties. 12 trademarkable brands. 16 proprietary systems. Every transaction cryptographically yours. The protocol IS the moat."

for statutory damages.
